Lomita GOP Women Plan Coffee Hours

Coffee hostesses will open their homes for a series of six consecutive Tuesday get-togethers prior to the Nov. 2 election, with Mrs. Anna Long, 25832 Lucille ave., appointed as chairman of Republican Women in Lomita.

The meetings are being planned under the auspices of the "Republican Federation of Women," and "Citizens for Eisenhower," with Mrs. Jack Drown of Rolling Hills, as area chairman.

Volunteers are being sought by Mrs. Long to hold sessions in their homes.

MEETING EVERY Tuesday from 7 p.m. to 10 p.m. at Lomita Park is the chess club. The park is located at 24428 Eshelman avenue.

Visiting Nurse Group To Offer Services

The Visiting Nurse Association, a Community Chest sponsored agency, will extend its service to the Harbor Area early in November.

This was officially disclosed today in a joint announcement by Mrs. Ralph P. Cousins, president of the Board of Visiting Nurse Association of Los Angeles, and Alex Bero, president of the Harbor Area Welfare Board.

Services

A non-profit organization, the Visiting Nurse Association of Los Angeles was organized in 1940 to provide bedside nursing care for the sick in their homes.

VNA also teaches the family how to care for the patient, supervises care, and aids in prevention of disease through health, hygiene and sanitation education.

Instrumental in bringing the VNA service into this vicinity are members of the Harbor Area Welfare Planning Council organized in June of 1953.

Torrance Representatives

Torrance representatives and members at large on the council are Dr. Benjamin Cogan of the City Health Office, Torrance and George W. Evans.

The VNA is a participating member of the Community Chest, and in addition receives funds from nominal fees of patients based upon their "ability-to-pay."

A unanimous recommendation made by the Board of Directors of the Harbor Area Planning Council to establish the new VNA office in Torrance on Nov. 1 and to initiate active service by Dec. 1 is expected to be verified by the Los Angeles VNA very shortly.

STREAMLINED . . . McCown drug store has just undergone a complete interior remodeling and modernizing. Everything is now on a self-service basis with the exception of the pharmacy, seen above. The pharmacy has been moved to the front of the store for speedier service. Here Harry Petro, store manager, helps a customer, Mrs. Opal Watkins.

NOW... New Fully Automatic PUSHBUTTON WASHER!

Painting Stucco

Answers to questions about Nalcrete

Q. What new development has revolutionized the painting of stucco homes?

A. "Dutch Boy's" amazing new polymer paint, Nalcrete.

Q. How does Nalcrete differ from ordinary paints when first applied?

A. Ordinary stucco paint often looks blotchy at first then "weathers" out to a uniform color. But Nalcrete gives a beautiful, uniform color the instant it is dry.

Q. What happens as Nalcrete "ages"?

A. Nalcrete holds its color without fading; washes sparkling clean in hard rains, leaves no dirty streaks. It defies sun, storm and fog, and, most important, it does not react with the alkali present in most masonry surfaces.

Q. Is Nalcrete available in colors as well as white?

A. Yes... in a wide range of colors from the "Dutch Boy" Color Gallery, plus easy intermixes.

The metal that makes time stand still

Thanks to chromium, steel now serves you with strength and beauty that lasts a lifetime

IN TIME, one of man's most useful materials—steel—is often the victim of such destructive forces as rust, corrosion, heat, or wear.

THESE NATURAL ENEMIES of steel now are mastered by the metal called chromium. When the right amount of chromium is added to molten steel, the result is strong, lustrous stainless steel that defies the ravages of time.

IN HOMES, TODAY, stainless steel is a shining symbol of modern living. It brings us care-free sinks, gleaming tableware and kitchen utensils—all with beauty that lasts a lifetime.

IN INDUSTRY—Food is prepared in super-sanitary stainless steel equipment. Streamlined trains and buses are made of this wonder metal. Vital parts of jet planes that must withstand both blazing heat and sub-zero cold are made of tough, enduring stainless steel.

SERVING STEEL... AND YOU—The people of Union Carbide produce alloys of chromium for America's steel-makers. This is another of the many ways in which UCC transforms the elements of nature for the benefit of everyone.

FREE: For the full story of the everyday miracles made possible by alloying metals such as chromium, write for the illustrated booklet, "Hot-Metal Magic." Ask for booklet G.
